Bowen Will Not Go to The Hague Washington, Feb. 18.-It does not

seem at all probable at this time that Herbert W. Rowen, the United States minister to Venezuela will go to The Hague in connection with the move-ment to have that tribunal determine whether or not the European allied governments which maintained a blockade of Venezuelan ports, shall have preferential treatment in the payment of the claims of their citizens against Venezuela. If Mr. Bowen's pleasure in the matter were consulted the likeli-hood is that he would participate in the proceedings before The Hague tribunal, but he is not willing to resign his position as minister to Venezela for that purpose and the rules of the state department prohibit the granting of more than 60 days' leave of absence in any one year to diplomatic officers. The impression also obtains that the department is not over anxious for Mr. Powen to attend, as his presence at The Hague might cause a belief that the United States is overzealous in be half of Venezuela.
